### SKILLS

#### Backend

Master

go java php

#### Web

Advanced

javascript / jsx gatsby  
graphql react material ui

#### Blockchain

Intermediate

ethereum virtual machine (evm)  
defi non-custodial wallets  
metamask

### WORK EXPERIENCE (4)

Senior Software Engineer at Intuit November 2021- Current

📍 Remote <https://intuit.com>

- Hired as part of acquisition of Mailchimp

Software Engineer III at Mailchimp April 2021- November 2021

📍 Brooklyn, NY <https://mailchimp.com/andco/>

- Lead squad of engineers to build a partner referral system that has generated over \$250,000 in revenue since its inception
- Designed and implemented a new pattern for accessing partner data across over 250+ code touchpoints
- Served in an on-call rotation to provide after-hours support and incident management for our cloud-enabled Go-gRPC service

Software Engineer II at Mailchimp June 2019- April 2021

📍 Brooklyn, NY <https://mailchimp.com/andco/>

- Launched & maintained Mailchimp & Co - a partner program for over 20,000 agencies that help other small businesses use Mailchimp
- Built a Learning Management System (LMS) that asynchronously ingests and updates partner data using Google Pub/Sub and Spanner
- Automated the terms and conditions (T&Cs) acceptance flow working cross-functionally with product, engineering, design, legal and marketing

Software Engineering Intern at Autodesk June 2018- September 2018

📍 San Francisco, CA <https://www.autodesk.com/>

- Researched effort for integrating AWS Fargate - Amazon's serverless compute engine - into the team's suite of deployment tools
- Implemented infrastructure as code to enable 25+ engineering teams to deploy to AWS Fargate using Terraform

### PROJECTS (2)

Second Generation September 2020- Current

<https://www.secondgen.co/>

Substack newsletter that aims to capture my evolving thoughts on wealth with first-generation college graduates in mind.

- Outlined how money flows through our financial system: <https://www.secondgen.co/p/money-flows>

APM Map June 2020- Current

<https://www.apmmmap.co/>

A mentorship platform that provides guidance and resources for students and early-career professionals looking to break into product management.

- Launched on Product Hunt: <https://www.producthunt.com/posts/apm-map>

### EDUCATION (1)

Bachelor Computer Science and Psychology at Columbia University in the City of New York

2015 - 2019

analysis of algorithms the self: a cognitive exploration interpersonal cognition user interface design cryptography and computer security

### AWARDS

Palantir Future Scholarship at Palantir Technologies  
2018

The Palantir Future Scholarship celebrates and supports students from underrepresented racial/ethnic groups in STEM who are beginning careers in technology. I was one of 10 scholarship finalists chosen and invited to visit Palantir's Washington, D.C. office for a full-day, all-expenses paid, developmental workshop.

QuestBridge National College Match at QuestBridge  
2014

The QuestBridge National College Match is a college and scholarship that helps outstanding low-income high school seniors gain admission and full four-year scholarships to the nation's most selective colleges. I was one of 27 students matched to attend Columbia University.
